DETAILED ACTION

Claim Rejections - 35 U.S.C. § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claim 6 is rejected under 35 U.S.C. 102(e) as being anticipated by Doverspike(6,097,696).

With regards to claim 6 Doverspike teaches a method of failure notification, the method comprising:

providing a communications network having at least two overlapping areas of nodes interconnected by communications links(Fig. 2, subnets), upon a failure event involving on of the

communication links, broadcasting a failure message identifying the failed link, the broadcast being confined within the areas which include the failed link(col. 1 lines 54-56, flooding within the subnet).

Allowable Subject Matter

3. Claims 1-5, 18-25 allowed.
4. Claims 7-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
